MITIGATED DETERMINATION OF NON-SIGNIFICANCE – Modified

Description of proposal: The City of Puyallup is proposing to replace the existing Salmon Springs Transmission Main along Salmon Creek Tributary from just below the existing concrete dam to the existing chlorination compound in the City of Sumner. The original Mitigated Determination of Non-Significance (MDNS) was issued 12/10/15. This modified MDNS is issued in response to the applicant’s revised SEPA checklist (updated 02/19/16) to include additional minor revisions such as: piers for a temporary maintenance bridge, additional measures to protect trees, location of staging area, and location of off-site mitigation site along Salmon Creek.

Applicant: Mark Palmer
City of Puyallup
333 South Meridian
Puyallup, WA 98371

Project Number: PLN2015-0060

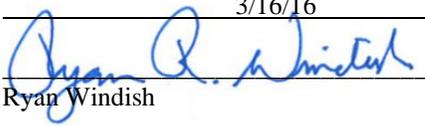

Location of Proposal: Salmon Springs Transmission Main, Parker Road, North of Downtown Sumner in Section 18 of Township 20N and Range 05E.

Lead Agency: City of Sumner

Associated documents may be downloaded at: http://www.ci.sumner.wa.us/Government/Public_Notices.htm

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

- ___ There is no comment period for this DNS.
- ___ This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS.
- X This DNS is issued under 197-11-340 (2); the lead agency will not act on this proposal for 14 days from the published date below.

1. The proposed project will traverse wetland and stream buffers. The project is an exempt utility corridor project under SMC 16.56.100(G) and SMC 16.46.150(J)(2) and, therefore, is not required to obtain a variance from the critical areas regulations in the Sumner Municipal Code.
2. The project shall comply with the approved Wetland and Stream Investigation and Delineation Memorandum and Habitat Management Plan, -updated February 23, 2016.
3. A final mitigation plan, which will include landscaping plans per SMC 18.41 shall be provided and approved prior to permit issuance.
4. Annual monitoring reports shall be provided as set forth in SMC 16.56.080(C).
5. Must comply with any conditions required by the US Army Corps of Engineers.
