

1104 MAPLE STREET, SUMNER WA 98390

**COMMUNITY DEVELOPMENT DEPARTMENT**

253-299-5520

**MITIGATED DETERMINATION OF NON-SIGNIFICANCE**

Description: Addition of two lanes and non-motorized facilities on Traffic Avenue overpass/bridge and reconfiguring the intersections at SR410. Documents related to this proposal are available on the City of Sumner website at [www.ci.sumner.wa.us](http://www.ci.sumner.wa.us).

Proponent: City of Sumner

Project Number: PLN-2017-0005

Location of Proposal: Sumner, WA 98390

Lead Agency: City of Sumner

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

\_\_\_ There is no comment period for this DNS.

\_\_\_ This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS.

X This DNS is issued under 197-11-340 (2); the lead agency will not act on this proposal for 14 days from the date below.

## SEPA MITIGATION MEASURES

### *Conditions of approval*

- 1) The City shall provide opportunity for the Tribes to review and comment on final design of the proposed overpass/bridge project.
- 2) If new development is proposed within 200 feet of the Floodway or Ordinary High Water Mark, then prior to permit issuance for that portion of the development the proposal must obtain a Substantial Shoreline Development Permit.
- 3) If the footprint of any new development is proposed within the floodplain, then additional analysis consistent with SMC 15.52, SMC 16.40 and SMC 16.56 must be provided as part of the final design.
- 4) In the event that archaeological materials are encountered during the development of the property, an archaeologist shall immediately be notified and work halted in the vicinity of the find until the materials can be inspected and assessed. At that time, the appropriate persons are to be notified of the exact nature and extent of the resource so that measures can be taken to secure them. In the event of inadvertently discovered human remains or indeterminate bones, pursuant to RCW 68.50.645, all work must stop immediately and law enforcement should be contacted. Any remains should be covered and secured against further disturbance, and communication established with local police, the DAHP, and any concerned tribal agencies.
- 5) A noise study that quantifies and analyzes the project's potential noise impacts and mitigation measures will be completed as part of the NEPA process and in accordance with WSDOT protocols and standards.
