**AGREEMENT
By and Between**

**CITY OF SUMNER
and
INTERNATIONAL UNION OF OPERATING ENGINEERS, LOCAL 302**

This Agreement is made and entered into this _____ day of _____, 2024, by and between the City of Sumner, Washington, hereinafter referred to as the "Employer", and the International Union of Operating Engineers, Local 302, hereinafter referred to as the "Union".

ARTICLE I – UNION RECOGNITION

1.1: The Employer recognizes the Union as the collective bargaining agent for all regular employees in the classifications listed in Appendix A.

1.1.1 Extra Agreements: The Employer agrees not to enter into any agreement or contract with its employees, individually or collectively, which is inconsistent with the terms of a collective bargaining agreement then in effect.

1.2: The Employer agrees to deduct monthly dues, each pay period, from bargaining unit members who have authorized such deductions in written, electronic, or recorded voice authorization to the Union. If the Employer receives a request for authorization of deductions, the employer shall as soon as practicable forward the request to the Union. Furthermore, the Employer agrees to deduct monthly additional sums for Union programs for those who have voluntarily authorized such deductions. The Employer shall transmit such deduction(s) to the Union by EFT, ACH or check payable to its order. Upon issuance and transmission of such deduction(s) the Employer's responsibility shall cease with respect to such deductions. The Union and each employee authorizing the assignment of wages for payment of Union dues and or Union programs hereby undertake to indemnify and hold the Employer harmless from all claims, demands, suits or other forms of liability that may arise against the Employer for or on account of any deduction made from wages of such employee.

1.3: An employee may stop paying union dues by submitting a written request to the Union in accordance with the terms and conditions on the authorization. After the Employer receives confirmation from the Union that an employee has revoked authorization, the Employer shall end the deduction no later than the second payroll after receipt of the confirmation.

1.4: The Employer agrees to provide notice to the Union of all represented positions job postings.

ARTICLE II – SENIORITY

2.1: Seniority shall prevail in layoffs for all employees after successful completion of the employee's trial period. Seniority shall be broken only by justifiable discharge, voluntary quit, or more than twelve (12) months layoff for employees with less than ten (10) years of service and eighteen (18) months layoff for employees having more than ten (10) years of service. In the event of a layoff, the last employee hired shall be the first laid off, and the last employee laid off shall be the first employee rehired.

2.2: Temporary employees hired to perform duties requiring certification at the WWTF will be paid at the minimum hourly rate for that position and shall not be employed for more than five (5) months unless mutually agreed to be extended by City and Union. These temporary employees are not members of the bargaining unit and are generally not entitled to any of the benefits in this agreement.

As defined in the Affordable Care Act, beginning January 1, 2015, temporary employees who are hired with the intent of working more than 30 hours per week for more than 90 days are eligible for health care benefits. Health care coverage would be effective the beginning of month three (3). For example, if an employee begins work January 16th, they would begin receiving medical benefits March 1st provided that their expected length of service would be more than 90 days. If the requirement to provide health care coverage under the Affordable Care Act changes or is delayed, the parties agree to meet to discuss the changes as they pertain to this article.

Extra employees shall not be employed to deprive regular employees of Saturday or Sunday overtime or assigned duties.

2.3: The Employer and the Union agree that, merit and ability being equal, length of service shall govern in layoffs and rehiring within the bargaining unit.

2.4: New hire employees in all classifications have a twelve (12) month trial period. Periods of leave without pay for over 80 consecutive hours, shall not count towards the length of the trial period. The employee's supervisor shall conduct at least one mid-trial period evaluation of the employee listing any areas that are of concern in which the employee does not meet the requirements of the job.

Regular employees who accept a new position shall serve a six (6) month trial period in which to demonstrate their knowledge, skills and abilities to perform the duties of the position as so stated in the job description. The employee's supervisor shall conduct at least one mid-trial period evaluation of the employee listing any areas that are of concern in which the employee does not meet the requirements of the job. Upon successful completion of the trial period, the employee shall receive a step increase. Step increases would occur annually thereafter until the employee reaches the top step in their band.

2.5 Promotional Vacancies: The Operator in Training, Operator 1, Environmental Technician and Engineering Technician classifications are considered entry level positions and should be open to the public. The Chief Operator, Lab Technician, Lab Analyst, Lab Process Analyst, Senior Engineering Technician, Pretreatment Coordinator, Industrial Electrician and Senior Industrial Electrician classifications are considered promotional opportunities and shall be recruited in the following manner:

1. The promotional position will be opened internally to bargaining unit members only for a minimum of five (5) business days. Business days shall include only Monday through Friday.
 - a. The Senior Engineering Technician classification will be opened internally to all City employees.

2. If the City receives written notification from at least two employees who meet the minimum qualifications for the position, an objective personnel selection process will be conducted. If the applicants are found to be equally qualified, as a result of the selection process, selection will be based upon seniority.
 - a. If less than two qualified employees apply the City may recruit for the position externally.

The internal posting provisions may be waived, or modified, by mutual agreement between the Union and the Employer.

Once an Engineering Technician has met the minimum requirements of the job description, they shall be eligible for promotion into the Senior Engineering Technician positions based on a successful evaluation and recommendation by their supervisor. The promotional opportunity is based on experience and a vacancy is not required to create the promotional opportunity.

2.6 Wastewater Classification Progression: Classifications for Wastewater positions, both Operators and Lab, are solely based on the State Level Certification that the employee holds. After the employee successfully obtains a higher certification, they shall be reclassified to the corresponding operator classification effective the first day of the next pay period. The employee will be placed in the new classification's wage band one step lower than their previous classification e.g. An Operator 2 at step three (3) achieves their level 3 license will be moved to step two (2) of the Operator 3 classification. If the new step is less than three percent higher, the employee will move to the next highest step. Step increases would occur annually thereafter until the employee reaches the top step in their band. Employees are typically not eligible to progress into a new higher classification within that first year after classification increase. OIT Certifications do not qualify for the progression process.

ARTICLE III – GRIEVANCE PROCEDURE

3.1: A grievance is defined as a dispute arising under the terms and conditions of the Agreement. If any such grievance arises it shall be submitted to the following grievance procedure:

In an effort to resolve disagreements at the lowest possible level, the employee will meet with their supervisor within fifteen (15) calendar days of the alleged occurrence. This meeting shall occur prior to the official filing of a grievance at Step 1 of the grievance procedure. The employee may request the attendance of a Union representative. Management will set the time and meeting place.

Time limits in the following Steps may be extended by mutual written consent of the parties hereto.

- Step 1:** If the disagreement is not resolved at the immediate Supervisor's level. Then the grievance shall be submitted in writing to the Department Director within fifteen (15) calendar days of the meeting with the immediate Supervisor. The Department Director will meet with the affected parties within fifteen (15) calendar days. The Department Director shall make a decision on the matter within fifteen (15) calendar days. The parties shall make every effort to resolve the grievance at this level.
- Step 2:** If the grievance is not resolved the grievance may be presented to the Mayor or their designee in writing within fifteen (15) calendar days, setting forth the detailed facts concerning the nature of the grievance section of the contract allegedly violated and

remedy sought. The Mayor or their designee shall meet with the employee, Union representative and Department Head within fifteen (15) calendar days of receipt of the written grievance. The Mayor shall send a written answer stating their position to the employee within fifteen (15) calendar days of such meeting.

Step 3: If the grievance is not settled in Step 2, either the Employer or the Union may submit the issue in writing to arbitration within fifteen (15) calendar days. The Employer and the Union shall attempt to select an arbitrator. If the Employer and the Union fail to agree on an arbitrator a list of seven (7) arbitrators shall be requested from the Public Employee Relations Commission (PERC). The list shall only include arbitrators from within Washington State. The parties shall thereupon alternate in striking a name from the panel until one remains within fifteen (15) days of receiving the list. The person whose name remains shall be the arbitrator. The arbitrator shall render a decision as promptly as possible. The arbitrator shall confine themselves to the issues submitted for arbitration and shall have no authority to determine any other issues not so submitted to them. The arbitrator shall have jurisdiction and authority only to interpret, apply or determine compliance with the specific terms of the Agreement and shall not have jurisdiction to add to, detract from or alter in any way the provisions of this Agreement. The decision within the jurisdiction of the arbitrator shall be final and binding upon both parties. The expenses and fees incumbent to the services of the arbitrator shall be borne equally by the Employer and the Union.

Each party is responsible for the costs of its staff representatives, attorney, and all other costs related to the development and presentation of its case.

ARTICLE IV – DISCRIMINATION

4.1: The Employer and the Union agree not to discriminate against any employee of a protected class including but not limited to race, color, creed, sex, national origin, age, marital status, sexual preference or sexual identity. The Employer and the Union further agree not to discriminate against any employee based on the presence or appearance of a mental, sensory or physical handicap, subject to occupational requirements and the ability to perform the job.

4.2: Whenever words denoting gender are used in this Agreement they are intended to apply equally to any gender.

4.3: No public employer or other person shall directly or indirectly interfere with, restrain, coerce or discriminate against any public employee or group of public employees in the free exercise of their right to organize and designate representatives of their own choosing for the purpose of collective bargaining or in the free exercise of any other right under RCW 41.56.040.

ARTICLE V – PENSION

5.1: The city makes contributions on behalf of all eligible employees to the Social Security System. In addition to those contributions made by the employee through FICA payroll deductions, most regular full-time and regular part-time employees are also covered under the Department of Retirement Systems

Public Employees Retirement System (PERS). Eligibility, benefit levels and contribution rates are set by the State of Washington.

5.2: An employee solely at their own expense, and election to do, so may contribute through payroll deduction to the Central Pension Fund of the International Union of Operating Engineers.

ARTICLE VI – PAID TIME OFF

The City plans to implement the Paid Time Off program effective in July 2024. All employees covered under this agreement shall be entitled to Paid Time Off (PTO) accruals to be used for vacation, personal or family illness or other personal time off.

PTO will accrue as follows:

Service Year	PTO
0	179
1	187
2	195
3	203
4	211
5	219
6	227
7	235
8	243
9	251
10	259
11	267
13	275
16	283
19	291
22	299
25+	307

The PTO accrual shall start from the date of employment and will continue to accrue each pay cycle. Employees are eligible to use PTO leave as soon as hours are accrued. No PTO leave shall be allowed for temporary employees. Total PTO accrual must be at or below 640 hours by the last full pay period in a calendar year and any unused PTO time will be forfeited to the City. An employee may submit a written request to the Human Resources for a three-month extension to use the PTO time, provided that the extension is needed due to a planned event (upcoming trip, long term medical leave or retirement).

Upon separation from employment, banked PTO up to a maximum of 420 hours will be paid at the applicable rate of pay on the employee’s final paycheck. Any excess PTO hours will be forfeited to the City.

Employees may cash out accrued PTO hours in excess of 280 hours. The minimum sell-back shall be 40 hours per occurrence and employees will not be able to sell-back more hours than they have used in the previous 6 months, not to exceed 120 hours annually. In order to receive a sell-back, a written request must be submitted to Human Resources at least thirty (30) days prior to payment of the sell-back amount.

PTO Scheduling: Typically PTO is approved time off from work that is scheduled at least two shifts in advance. Unscheduled PTO is time off taken with less than two shifts' notice. If an employee's unscheduled absences become excessive, corrective and/or disciplinary action may be taken for the excessive absenteeism.

Since the City's paid time off (PTO) or sick leave accrual exceeds the rate of accrual required by Washington Paid Sick Leave (WPSL), no additional sick leave accrual will be made under this policy for regular, full time employees.

Prior to the implementation of the PTO program, eligible employees will accrue vacation leave as follows:

Years of Service	Vacation Days (Hours)
< 1	12 (96)
1-2	13 (104)
2-3	14 (112)
3-4	15 (120)
4-5	16 (128)
5-6	17 (136)
6-7	18 (144)
7-8	19 (152)
8-9	20 (160)
9-10	21 (168)
10-11	22 (176)
11-13	23 (184)
13-16	24 (192)
16-19	25 (200)
19-22	26 (208)
22-25	27 (216)
25+	28 (224)

The accrual shall start from the date of employment. No vacation leave shall be allowed to temporary employees. Whenever practical, vacations will be given at the time most desired by the employees who will be permitted to indicate their choices by order of seniority. The City, however, reserves the right to schedule vacations as to not interfere with normal operations and business requirements.

Total vacation accrual must be at or below 368 hours by the end of the calendar year for those employees hired prior to January 1, 2021 and 280 hours for those employees hired on or after January 1, 2021. Unused vacation time will be forfeited to the City. An employee may request a three month extension to use the vacation time, provided that the extension is needed due to a planned event (upcoming vacation, long term medical leave or retirement).

Employees may cash out accrued vacation hours in excess of 280 hours. The minimum sell-back shall be 40 hours per occurrence and employees will not be able to sell-back more hours than they have used in the previous 6 months, not to exceed 120 hours annually. In order to receive a sell-back, a written request must be submitted to Human Resources at least thirty (30) days prior to payment of the sell-back amount.

ARTICLE VII – SICK LEAVE

7.1: Employees hired prior to the implementation of the PTO plan may use their existing sick leave accruals to seek medical care for themselves or paid time off to care for family members as outlined in City Policy. Grandfathered sick leave banks accrued prior to the implementation of the PTO plan will be cashed out upon separation following the language below.

7.2: Employees shall be reimbursed for unused sick leave of up to 720 hours at their regular base rate of pay when they are permanently separated from employment in accordance with the following schedules:

8.1.1 Washington Paid Family and Medical Leave Law: Eligible employees are covered by Washington’s Family and Medical Leave Program, RCW 50A.04. Eligibility for leave and benefits, is established by Washington law and is therefore independent of this Agreement. Premiums for benefits are established by law. Employees will pay through payroll deduction the full cost of the employee’s portion of the premiums associated with family leave benefits as determined under RCW 50A.04.115. The City will pay the remaining premium amounts.

8.2 Protected Leave Use: Employees may choose to use any applicable protected leave consecutive to accrued leave, provided that after the employee uses 960 hours of sick leave, and has exhausted other available accrued leaves (vacation, PTO, compensatory or holiday time), protected leave shall run concurrent with any remaining sick leave balance.

Pretreatment Coordinator and Environmental Technician: These positions are required to use their accrued leave on the City observed holidays. Excess holiday leave can be used at will in conjunction with supervisor approval.

President's Day	Third Monday in February
Juneteenth	June 19 th
Veteran's Day	November 11 th
Day after Thanksgiving	Fourth Friday in November

Examples:

Elected work on a holiday: Veteran's day falls on Saturday, City observes on Friday. The employee elects to work on Friday, will receive their regular rate of pay. The holiday banked hours can be used on a different date.

Employees hired after January 1st will receive a pro-rated amount of holiday leave based on the remaining number of holidays left in the calendar year.

Employees who separate will have their holiday leave prorated based on the number of holidays that have already occurred in the calendar year.

Examples:

Employee A separates from employment June 30th. Prior to June 30th they have already used 54 hours of holiday time. January 1-June 30th there were only five holidays (45 hours). The overage (9 hours) would be deducted from the employee's PTO bank prior to separation pay out. If the employee doesn't have adequate PTO hours it would be deducted from the final paycheck's regular hours (to make the city whole). The overage would be reported the Department of Retirement Services in the period it was earned.

Employee B separates from employment June 30th. Prior to June 30th they have only used 9 hours of holiday time. January 1-June 30th there were five holidays (45 hours). The shortage (36 hours) would be added to the separation pay out and would be reportable as wages to the Department of Retirement Services.

9.2 Floating Holiday: Each employee shall receive nine (9) hours of floating holiday accrual, January 1st of each year. Employees starting after the first of the year shall receive floating holiday hours upon hire. The floating holiday hours shall be denoted in a separate leave bank. The floating holiday hours must be used by the end of the calendar year. Unused floating holiday time will be forfeited to the City. Upon separation the floating holiday hours shall not be paid out.

ARTICLE X – DISCIPLINE

10.1: The Employer has the right to discipline any employee for just cause. Any such disciplinary action will normally be progressive in nature, but the level of discipline administered may depend upon the severity of the offense. Progressive discipline will normally consist of a verbal warning first, a written warning second, temporary suspension third, and finally termination of employment. Except in the case of severe misconduct, there shall be a written warning in the personnel file for the same type of misconduct as the suspension or discharge.

10.2: Written reprimands and suspensions less than forty (40) hours may remain in the employee's personnel file for a period of not more than thirty-six months. A copy of such written reprimand / suspension shall be sent to Operating Engineers, Local 302 at the time it is given to the employee. Records retained in an employee's personnel file longer than provided in this section shall be inadmissible in any proceedings concerning disciplinary action.

10.2.1: Suspensions of forty (40) hours or more or demotions may be retained permanently in the employee's personnel file. A copy of such written reprimand / suspension shall be sent to Operating Engineers, Local 302 at the time it is given to the employee.

10.3: The employee or the union shall have the right to process any disciplinary action as a grievance through the grievance procedures except for documented verbal reprimands and except for employees serving an initial probationary period who are disciplined. Employees have the ability to submit a written rebuttal to documented verbal reprimands that shall be attached to the documented verbal reprimand and placed in a supervisor file for the purposes of completing an annual evaluation not to exceed one year.

ARTICLE XI – WORK STOPPAGES

The Employer and the Union agree that the public interest requires efficient and uninterrupted performance of all City services and to this end pledge their best efforts to avoid or eliminate any conduct contrary to this objective. Specifically, the Union shall not cause or condone any work stoppage, including any strike, sympathy strike, slowdown, refusal to perform any customarily assigned duties, sick leave absence which is not bona-fide, or other interference with City functions by employees under this Agreement, and should same occur, the Union agrees to take appropriate steps to end such interference. Any concerted action by any employee in any bargaining unit shall be deemed a work stoppage if any of the above activities occurs.

ARTICLE XII – BULLETIN BOARDS

The Employer agrees to provide suitable space for the bargaining unit to use as a bulletin board. Postings by the bargaining unit on such boards are to be confined to official business of the unit; maximum size to be not greater than two (2) feet by three (3) feet.

ARTICLE XIII – INSPECTION PRIVILEGES

Authorized agents of the bargaining unit shall have access to the Employer's establishment during working hours for the purpose of adjusting disputes, investigating working conditions, and ascertaining that the Agreement is being adhered to, provided, however, that there is no interruption of the Employer's working schedule.

ARTICLE XIV – HOURS OF WORK, SALARY AND OVERTIME

14.1 Base Wages: Base wages shall be paid to the members of the Union in accordance with Appendix A.

14.2 Hours of Work: A normal work week shall consist of four (4) or five (5) consecutive work days, followed by two (2) or three (3) days of rest, depending on the shift schedule. Normal hours of work shall be for a continuous eight and one-half (8-1/2) hour period with thirty (30) minutes for lunch or a continuous ten and one-half (10-1\2) hour period with thirty (30) minutes for lunch.

14.2.1 Weekend Shift Scheduling: The WWTF requires work to be performed seven days per week. The City and Union agree to schedule the weekend shifts in one of the following manners:

- A. The weekend shifts will be filled by one employee volunteer. The employee volunteer would be identified by November 1st of each year, for the following year's schedule. In the event that more than one employee volunteers to work the weekend shift, option B shall apply.
- B. The weekend will be split between two employee volunteers (one employee's work week would include the Saturday; the other's would include the Sunday). Employee volunteers would be identified by November 1st of each year, for the following year's schedule. In the event that more than two employees volunteer to work a weekend shift, seniority shall prevail.
- C. If there are not two volunteers, a schedule will be developed that schedules employees in four week rotations to cover both weekend days (one employee would cover both weekend days). As part of the rotation, the scheduling may include requiring an employee to work a 4-10 schedule during the transition week(s). The City should make every effort to ensure that an employee has at least two days off in a row during the transition week(s). This schedule shall be posted by December 1st for the following year.

14.3 Overtime: All hours worked in excess of eight (8), nine (9) or ten (10) hours per day depending on the scheduled shift, shall be paid for at the overtime rate of time and one-half. The use of any paid time shall be counted as time worked for the purpose of computing overtime.

Overtime worked on a Sunday shall be paid double their regular hourly rate. When members are required to work overtime on a recognized holiday, their holiday overtime rate of pay shall three (3) times their regular rate of pay.

The City agrees to provide the impacted employee two (2) weeks' notice of any change to their schedule whenever practical.

14.3.1 WWTF Scheduled Overtime: Scheduled overtime is pre-planned work or scheduled shift coverage. Scheduled overtime does not include shift extensions or call backs.

The employer shall offer scheduled overtime according to the highest Operator classification (exclusive of the Chief Operator and Pretreatment Coordinator), in seniority order until sufficient volunteers are selected to perform the work. In order to be available for emergency situations, the on-call operator is not eligible to be scheduled for overtime. Notwithstanding the foregoing, when projects require special certifications overtime shall be assigned to certified employees by seniority.

Where an insufficient number of volunteers accept the overtime assignment, the employer shall assign the overtime work to the on call operator, and if additional staff is needed it shall be assigned in inverse seniority order, without regard to classification level. If inverse seniority is used to staff the overtime, the Chief Operator has the discretion to determine if the employee is qualified to perform the work. If the employee is not qualified, they can be skipped over and the overtime assigned to the next lowest in seniority employee.

14.3.2 Engineer Technician Scheduled Overtime: Engineering Technicians required to work overtime shall be compensated as follows: All scheduled work performed on Saturday will be paid at time and one-half for a minimum of three hours. On Sundays Engineering Technicians who are required to work shall be paid double time for a minimum of four hours. There is no minimum overtime period if the overtime is contiguous to a scheduled shift.

Required work on a holiday: If the employee is directed to work on Friday (observed holiday) and Saturday (calendar holiday), the employee will only receive double time with a minimum of four hours for Friday (observed holiday). Any time worked on Saturday will follow the work performed on Saturday rules and will receive time and one half with a minimum of three hours.

14.4 Compensatory Time: Employees may accrue compensatory time off at the same rate as it was accrued for authorized overtime work in lieu of overtime pay; provided such compensatory time may not be accrued in excess of the maximum allowable under the Fair Labor Standards Act (240 hours). Use of compensatory time shall be by mutual agreement between the employee and their supervisor, upon the request of the employee, and subject to approval based on staffing needs of the department. Employees may accrue compensatory time off at the rate of double time per hour for authorized overtime work in lieu of overtime pay for work performed on Sundays and holidays. Compensatory time must be used by the end of the calendar year. Unused compensatory time will be paid out at the applicable wage. An employee may submit a written request to Human Resources for a three month extension to use the compensatory time, provided that the extension is needed due to a planned event (upcoming vacation or long term medical leave).

14.5 Shift Extension: A shift extension is time worked (scheduled or unscheduled) by an employee contiguous to the beginning or end of a regularly scheduled shift. Shift extensions shall be compensated at the applicable overtime rate for the actual hours worked in addition to the regular shift. There is no minimum overtime period if the overtime is contiguous to a scheduled shift.

14.6 Callback: When an employee is called in for work during off hours and after leaving their regular place of work, they shall receive not less than three (3) hours pay at the overtime rate. When an employee is required to respond to an emergency that can be resolved without returning to their regular place of work, they shall receive one (1) hour pay at the overtime rate. This remote response pay shall not be combined with any call-back pay. If an employee is called in for work during Sundays, the City will pay double time for a minimum of four (4) hours. If an employee is called in for work on a recognized holiday, their holiday overtime rate of pay shall three (3) times their regular rate of pay for a minimum of four (4) hours.

When an employee works overtime in which the start time is on a regular day and extends into a Sunday or recognized holiday, the overtime rate of pay changes at midnight.

Example: An employee gets called in at 11:00 PM on a Saturday. The employee would receive one (1) hour of overtime and two (2) hours of double time.

Example: An employee gets called in at 10:00 PM on a Sunday and the following Monday is a recognized holiday. The employee would receive two (2) hours of double-time and two (2) hours of triple time for a minimum of four (4) hours.

14.7 WWTF In-Charge Pay: If an employee is assigned to perform work and responsibilities of a higher classification for a period of one (1) or more full-days, or when scheduled to work on a weekend or holiday, they shall be paid an additional hourly amount equal to the average difference between Operator Bands (WW2, WW3, WW4 at Step 1 and Step 5) and the Chief Operator Band at Step 5. The intent is to not assign more than one person as in-charge per day. In-Charge pay is only paid when both the Chief Operator and WWTF Superintendent are absent. In-Charge pay shall be assigned based first on highest classification and then by most seniority within the highest classification. The Pretreatment Coordinator is not eligible for In-Charge Pay.

In the event that both Chief Operators and the WWTF Superintendent are absent, then In-Charge Pay shall be assigned based first on highest classification and then by most seniority within the highest classification. The intent is to not assign more than one Operator as in-charge per day.

The 2024 In-Charge Pay will be \$12.31 per hour.

14.8 Acting Superintendent Pay: In the even that the WWTF Superintendent is absent for two (2) or more consecutive days (not including weekends or holidays), only one (1) Chief Operator wil be assigned as Superintendent for a period of one (1) or more full-days based first on highest classification and then by most seniority within the highest classification, or as mutually agreed upon between the Chief Operators.

Acting Superintendent Pay will be calculated as the difference between the top step Superintendent rate and the top step Chief Operator rate. Employees assigned should be scheduled to work the entire shift and should not be split between multiple employees if possible.

The 2024 Acting Superintendent Pay will be \$9.88 per hour.

14.9 Shift Premium: Hours of work for the Treatment Facility shall be from 6:00 a.m. to 6:00 p.m. All hours before or after normal hours of work for assigned shift schedules, and Saturday and Sunday and

second and third shift, shall be compensated at an additional two dollars (\$2.00) per hour, but shall not be combined with any other additional compensation except for in charge compensation.

Hours of work for Engineering Technicians shall be from 6:00 a.m. to 6:00 p.m. Engineer Technicians scheduled to work outside of these hours shall be compensated in one of the below listed options.

Option A: If the scheduled hours result in less than eight (8) hours off prior to the employees next regularly scheduled shift, the employee is compensated under this option.

All scheduled hours occurring between 6:00 p.m. and 6:00 a.m. shall be compensated at two times their regular hourly rate, but shall not be combined with any other additional compensation including overtime (including shift extensions and call backs). If the majority of the scheduled regular hours occur before 6:00 a.m. the entire shift shall be at the premium rate (e.g. work runs from 10:00 p.m. to 7:30 a.m.—rate of pay does not revert to regular from 6:00 a.m. to 7:30 a.m.). Time worked shall count toward their normal 40 hour work week and shall be exchanged for a normally scheduled shift on a per hour basis. If the employee chooses they may take accrued leave to fulfill their 40 hour work week. If the scheduled shift exceeds the following day’s regular scheduled number of hours, the excess hours shall be compensated at two times the regular hourly rate, but shall not need to be adjusted off.

Example 1: An Engineering Technician is scheduled to monitor/inspect a night work performed by an outside contractor from 9:30 p.m. to 6:00 a.m. on a Wednesday. The employee would work the following schedule:

Monday	Tuesday	Wednesday	Thursday	Friday
7:30 a.m. – 4:00 p.m	7:30 a.m. – 4:00 p.m 9:30 p.m. – 6:00a.m. (Wed) 8 Hours DT	Off (Regular hours worked overnight) LWOP 8 Hours	7:30 a.m. – 4:00 p.m	7:30 a.m. – 4:00 p.m

Example 2: An Engineering Technician is scheduled to monitor/inspect a night work performed by an outside contractor from 7:30 p.m. to 6:00 a.m. on a Wednesday. The employee would work the following schedule:

Monday	Tuesday	Wednesday	Thursday	Friday
7:30a.m. – 4:00p.m.	7:30a.m. – 4:00p.m. 7:30p.m. – 6:00a.m. (Wed) 10 Hours DT	Off (Regular hours worked overnight) LWOP 8 Hours	7:30a.m. – 4:00p.m.	7:30a.m. – 4:00p.m.

Example 3: An Engineering Technician is scheduled to monitor/inspect a night work performed by an outside contractor from 8:30 p.m. to 2:00 a.m. on a Wednesday. The employee would work the following schedule:

Monday	Tuesday	Wednesday	Thursday	Friday
7:30a.m. – 4:00p.m.	7:30a.m. – 4:00p.m. 8:30p.m. – 2:00a.m. (Wed) 5.5 Hours DT	LWOP 5.5 Hours 2.5 Hours Regular or use accrued leave	7:30a.m. – 4:00p.m.	7:30a.m. – 4:00p.m.

Option B: If the scheduled night shift hours result in more than eight (8) hours off prior to the employees next regularly scheduled shift, the employee is compensated under this option.

All scheduled hours occurring between 6:00 p.m. and 6:00 a.m. shall be compensated at the overtime rate (additional 0.50 shift premium pay). The employee is expected to work their regularly scheduled shift the following day.

Occasional variances to the above options will be necessary due to operational or other unforeseen scheduling needs. In these cases the employee and the supervisor shall determine, in advance of the night work occurring, how to best follow the intent of this section.

14.10 On-Call Pay: Employees required to be on-call shall receive a standby premium of three dollars and seventy-five cents (\$3.75) per hour assigned. For the purposes of on-call, hours assigned include Monday through Friday when the facility is not staffed (15.5 hours) and 24 hours on Saturday and Sunday and Holidays. Employees unable to fulfill the entire weekly assignment may split the week with another qualified (employer approved) employee in daily increments.

By November 1st of each year, a list of Operator volunteers will be established to fulfill on-call responsibilities the following calendar year, in weekly rotating assignments. The employer has the ability to determine which Operators are eligible for on-call responsibilities. Typically the Chief Operator, Electrician Classifications, Laboratory Classifications, and Pretreatment Coordinator are not eligible for being on-call. The minimum pool of on-call Operators is three. If less than three operators volunteer for on-call responsibilities, qualified Operators will be assigned in reverse seniority to meet the minimum pool.

If an on-call operator is unable to be on-call due to long term medical reasons, or separates employment, or any other temporary staffing shortage and there are no volunteers from the operator group and no qualified operator available to meet the three-person minimum by reverse seniority then the pool would be opened for volunteers by seniority to the qualified personnel in the chief operator and lab titles. If a qualified operator becomes available, they would be placed into the pool rotation for future scheduling. Employees desiring to be removed from the pool mid-year for other reasons will be considered on a case by case basis in conjunction with the Union. If no one volunteers, the position shall be filled by reverse seniority. The intent is to maintain the same number of volunteers for the entire calendar year— regardless of the minimum pool.

14.9.1 Secondary Call-Outs: When an On-Call Operator needs additional assistance on a call-out; they shall be responsible for requesting assistance, by highest Operator classification, in seniority order. Notwithstanding the foregoing, the On-Call Operator may request assistance from either the Industrial Electrician or Pretreatment Coordinator classification, and/or the Chief Operator, where the nature of the work requires such qualifications. If one or more employee exists in these classifications, the call out shall be in seniority order by classification.

14.10 Holiday Pay: Holiday pay shall be paid to any member for all hours actually worked on holidays recognized and observed by the City except for the floating holiday. The floating holiday will be paid at the regular rate of pay, including applicable premium pay(s). Holiday pay is two times the employee's regular rate of pay. For example, if an employee's regular rate of pay, including any applicable premium pay(s), is \$10 per hour, their holiday pay for actual hours worked on the holiday will be \$20 per hour.

When members work overtime on a recognized holiday, their holiday overtime rate of pay shall three (3) times their regular rate of pay. For example, if an employee's regular rate of pay, including any applicable

premium pay, is \$10 per hour, their holiday overtime pay for actual hours worked on the holiday will be \$30 per hour.

14.11 Inclement Weather Time: Inclement Weather Time shall be paid to any employee for hours required to be worked when City Hall shuts down or reduces working hours due to inclement weather. Inclement weather time is additional accrued leave, for those hours actually worked (matching time) during normal City Hall business hours (Monday – Friday, 8am – 5pm) in which general City Hall employees were not required to be at work. There shall be no pyramiding of inclement weather time with overtime. Inclement weather time must be used by the end of the calendar year. Unused inclement weather time will be paid out at the applicable wage. An employee may request a three month extension to use the inclement weather time, provided that the extension is needed due to a planned event (upcoming vacation or long term medical leave).

Example: The employee is scheduled to work 8am-4:30pm. City Hall closes early at 3:30pm. The employee who is required to remain at work will begin accruing inclement weather time, in addition to their normal wages. Inclement weather time is only earned until the employee's shift is over at 4:30pm. At 4:30pm the employee begins accruing the applicable overtime rate of pay.

14.11 Meal Payment: Anytime an employee works four (4) consecutive hours of unscheduled overtime immediately following a regular shift, or is called out on a day off / holiday and works at least six (6) consecutive hours, the employee will receive a \$20.00 (twenty dollar) meal allowance, if not provided a meal by the Employer. The \$20.00 is payable in the corresponding pay check and is a gross amount. The meal payment does not apply to any previously scheduled overtime.

Examples:

- A. *The employee works 7 hours of overtime immediately following a regularly scheduled shift. The employee would receive one meal payment.*
- B. *The employee is called out on a day off and works 13 hours of overtime. The employee would receive two meal payments.*

The costs associated with the written test will be reimbursed to the employee. The training will be coordinated with a third party trainer and may be in conjunction with another City. The City desires to provide all required training in a timely manner in order to prevent certifications from lapsing. Employees who are aware they have certifications lapsing should notify the superintendent who will attempt to have the employee receive training prior to the certification lapsing. The degree of study must be related to the employee's classification. Generally, no reimbursement will be provided for pursuit of a Master's or Doctorate degree. The Mayor or City Administrator will determine eligibility of reimbursement for Master's and Doctorate degrees.

19.2.2 Application: Employees must apply at least 10 days prior to registration and receive approval prior to commencing the class or classes that may be eligible for reimbursement. Employees shall use the Tuition Reimbursement Request Form, obtain their Department Director's signature, and submit it to Human Resources. Blanket approval for a course of study will not be given; each class or group of classes must be submitted separately.

This amount is based on gross and will be included in the employee's second regular payroll check in January of each year. New employees starting after January

APPENDIX B – CCTV, GPS AND CONTROLLED ACCESS

The City of Sumner utilizes technology for the purpose of asset management and access control. The technology utilizes Global Positioning System (GPS) capabilities built into smartphones and tablets. Additionally, the City utilizes Closed Circuit Television (CCTV) security cameras and controlled access at most City Facilities.

The purpose of the GPS technology is to enhance our response time and documenting completed service requests. The purpose of the security cameras is to provide security monitoring at critical City facilities, and provide video evidence in the event of a security breach.

The logs and records from the GPS transmissions, camera recordings and access control logs provide added security to City property. It is understood that these devices may create a record—no different from a telephone or computer—of possible misuse of City property. These records are not intended to provide direct evidence of employee misconduct or wrongdoing. Should an incident or behavior be discovered for articulable reasons, such data may be used as evidence for employee counseling or discipline.

The use of this technology does not change or otherwise alter current employee expectations related to employee conduct and performance.

In summary:

- GPS technology is for gathering information related to location, maintenance and technical data performed by City employees.
- City employees shall be notified that all City-issued smartphones and tablets are enabled with GPS functionalities.
- The City shall not utilize the technology resources (GPS and security footage) to routinely or randomly monitor employee performance at any time.
- A supervisor may review data of a specific incident only when there is an articulable reason justifying such review. Articulable reasons for reviewing recorded data include, but are not limited to:
 1. A civil claim has been filed, or is likely to be filed, against the City based on the actions of an employee.
 2. A documented complaint has been made against an employee that if true would result in a violation of City policy, and an investigation of that complaint is in process.
 3. The employee was involved in a collision resulting in the serious injury or death of the employee or another involved person, and/or resulted in property damage requiring one or more vehicles to be towed from the collision location.
 4. Any supervisor can review recorded data when an articulable emergent reason exists, e.g. locating an employee for safety purposes.

- Data generated by these devices are maintained and retained in the regular course as with any other electronic business record of the City and shall be made available to the Union upon request.
