Welcome to the City of Sumner!

We hope this consolidated information will help you get started on the right foot as you go through the permit process.

If you are doing construction, please note that Sumner restricts construction to the following hours: Monday-Friday, 7 am – 6 pm, Saturday, Sunday and legal holidays 10 am – 6 pm.

Please be sure to come talk to the Permit Center before you start your project.

The City of Sumner Fee Schedule contains City fees and charges related to permitting, the fees included in this document have been adopted by City Council and are informational only. Details of every project including various development and permit fees should be reviewed with staff for specific compliance and conformity with codes and ordinances. Fee calculations are provided at permit approval however city staff is happy to assist you in estimating the cost of individual projects.

City Hall is open Monday-Thursday 8am-5pm. While City Hall is not open to the public on Fridays, staff is still available by phone or email 8am-noon.

The City of Sumner provides a wide range of municipal services to the community including public safety, planning, zoning regulation, building inspections and regulation, water, wastewater and stormwater management services, street maintenance, with parks and trail installation and maintenance.

Our online portal is now available for applications, permit issuance, inspection requests and more.

** The Pass-By Trip Reduction Factor reduces the Average Trip Rate based on average Pass-By trip percentages published in the *ITE Trip Generation Handbook* (3rd Edition, 2017) and previously adopted factors.

*** The Truck Trip Factor increases the trip rate to account for a truck-to-passenger car equivalent factor and a truck percentage obtained from the City of Sumner travel demand model.

NOTES:

- (1) *Trip Generation* (10th Edition, 2017) has less than 6 studies supporting this average rate. Applicants are strongly encouraged to conduct, at their own expense, independent trip generation studies in support of their application.
- (2) Alternatively, the PM peak hour trip regression equation in *Trip Generation* can be used instead of the average trip rate identified in the table. However the equation must be used according to the instructions in *Trip Generation*.
