CITY OF SUMNER
REQUEST FOR QUALIFICATIONS FOR CONSTRUCTION MANAGEMENT
SERVICES FOR HSIP-000S(668) SYSTEMIC HORIZONTAL CURVE AND ROADWAY
DEPARTURE SAFETY IMPROVEMENTS PROJECT, CIP 23-08

The City of Sumner solicits interest from consulting firms with expertise in roadway improvements, including guardrail installation, rumble striping, roadway channelization, pavement markings, and related transportation safety improvements. This request is for Construction Management services for the construction of HSIP-000S(668) Systemic Horizontal Curve and Roadway Departure Safety Improvements project. The estimated project start date is November 2026, with an anticipated completion date of May 2027. This agreement will be a professional services agreement for approximately 12 months in duration with the option for the City of Sumner to extend it for additional time and money if necessary. Payment for services will be made on a time-and-materials basis in accordance with the consultant's approved hourly rates and reimbursable expenses, subject to a negotiated not-to-exceed amount. Consultants will be considered for the following project.

The City of Sumner reserves the right to amend terms of this "Request for Qualifications" (RFQ) to circulate various addenda, or to reject all responses and withdraw the RFQ at any time, regardless of how much time and effort consultants have spent on their responses. Sumner may waive informalities in the process of evaluating responses. If not rejected, the City may require the correction of any deficiency in a response and accept the corrected response. This solicitation does not obligate Sumner to accept or contract for any services. Any resulting contract is subject to approval and may be rejected if it fails to confirm to City contracting specifications and guidelines.

Project Background

The work to be performed by the consultant consists of Construction Management Services for the aforementioned project, in which the scope will include but is not limited to construction management services, construction inspection services, construction testing services, commissioning agent, and construction administration/document control services.

This project includes guardrail installation, centerline rumble strips and outside lane rumble strips for East valley Highway; and re-stripe and shift merge channelization south/flip merge lane for 142nd Ave. Additional information about this RFQ and draft construction plans and specifications can be found at <https://sumnerwa.gov/> or by contacting Thi Le by bids@sumnerwa.gov or (253) 299-5718

There is no FSBE goal for this project.

Expected Tasks

The City is seeking a full suite of Construction Management, Construction Inspection, and Construction Administration/Document Control services. The following tasks are examples of some that are expected of the consultant:

- Lead weekly meetings with the City, contractor, and engineer.
- Change management.
- Risk management.
- Contractor schedule review and coordination.
- Track and review contractor RFIs and submittals, coordinate responses.
- Prepare/maintain documentation including: inspection logs, daily reports, force accounts, material testing, pay estimates, serial letters, pre-construction, daily photo documentation, and meeting notes, and required material records per federal requirements.
- Monthly Pay Estimates.
- Force account tracking and pricing.
- Ensure contractor is utilizing and maintaining Temporary Erosion and Sediment Control (TESC) best practices.
- Inspecting and ensuring the project red-lines/record drawings are up to date.
- Identifying and tracking construction quality issues and problems and recommending potential solutions.
- Monitor deliveries of material for quantities and acceptance criteria.
- Use of cloud-based document control system that will be accessible to the City.
